The applicant The Anaconda Company
660 Bannock Street, of Denver,
Street and No. or P.O. Box No. City or Town

Colorado 80204, hereby make application for permission to appropriate the public
State and Zip Code No.
 waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

June 18, 1895 State of Montana

1. The source of the proposed appropriation is underground
Name of stream, lake or other source.

2. The amount of water applied for is .05 (± 25 GPM) second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet acre-feet

3. The water to be used for exploration diamond core drilling (drilling water)
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated)

(b) Stockwater (state number and kinds of animals to be watered)

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point: in the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$
section 34, T6N, R41E, MDB&M, from which the southwest corner of
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
said section 34, bears S 72° 00' W, 240 ft.
it should be stated.

6. Place of use Sections 5 and 6, T5N, R42E, MDB&M.
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about 1 January and end about 31 December, of each year.
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) well, casing, pump and storage tank, transported to drill sites by tank truck
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....\$5,000.00
10. Estimated time required to construct works.....one (1) month
11. Estimated time required to complete the application to beneficial use.....as soon as permit is approved
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.
- A. Use map filed under Permit No. 23801 B. Annual consumptive use for exploration diamond core drilling - 1,600,000 gallons per year C. This well will furnish water for exploration diamond drills.

APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined amount of water granted under this permit and Permit 35777 is limited to what the well covered under the two permits is capable of producing. If certificates of appropriation are issued under this permit and Permit 35777, the total combined amount of appropriation granted in said certificates shall not exceed what the well covered under the two permits is capable of producing.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.05.....cubic feet per second, but not to exceed 1.6 million gallons annually.

Actual construction work shall begin on or before.....March 27, 1980

Proof of commencement of work shall be filed before.....April 27, 1980

Work must be prosecuted with reasonable diligence and be completed on or before.....March 27, 1981

Proof of completion of work shall be filed before.....April 27, 1981

Application of water to beneficial use shall be made on or before.....March 27, 1982

Proof of the application of water to beneficial use shall be filed on or before.....April 27, 1982

Map in support of proof of beneficial use shall be filed on or before.....
